

Dawson - Absorber

Absorption
HIGH END

Specifications

Acoustic performance:

Absorption range | 160Hz to 5000Hz
Acoustic class | B
Absorption coef. (α_w) | 0,85(M)

FG

Dim. | 595x595x86mm
Weight | Kg*
Units per box | 6
BoxWeight | 9,10 Kg*

FR+

Dim. | 595x595x86mm
Weight | Kg*
Units per box | 6
BoxWeight | 9,10 Kg*

Installation - Mechanical or Chemical
Packing Dimensions - 640x385x640mm
* Approximate weight

Description

Dawson Absorber was designed to control noise, sound reflections and excessive reverberation, in a decorative manner. Manufactured with premium materials and carefully wrapped with acoustic fabric, this product has an outstanding performance from mid to high frequencies.

Using a patented technique, the rear crenellated surface of the panel was designed to optimise performance by increasing surface area, reduce raw material waste and improve shipping, reducing packaging size and increasing the products resistance. Available in standard market furniture grade fire rate, appropriate for home use applications, compliant with all domestic level fire grades; and Fire Rate + fire resistance, compliant with entry-level fire resistance, certified under specific European and American regulations. Available in 7 standard colours, plus customised colours on demand.
